

# GUNTHEE-MAN

## ABOUT ME

Hello! I'm **GUNTHEE TAWEWATMONGKOL**.

Before I entered to Kasetsart university, I only worked on VDO editing (Ulead vdo and studio & Ae), another design (Ps & Ai) and had no any experience about coding. When I entered to software and knowledge engineering and studied about 'CODING', I found that coding wasn't harder than I thought (just in the beginning...haha). After I decided to create mini 'DESKTOP GAME' for my first semester project, I have been falling in love with game development.♥
